

TECHNICAL DATA

FRYERS PROFESSIONAL GAS-OIL

FGOIL70

Robust and resistant stainless steel industrial machines ideal for a big production, professional analog equipment.

TECHNICAL CHARACTERISTICS:

- Suitable for use outdoors and indoors.
- Manufactured of Aisi 304 18/10 stainless steel.
- Frying in stainless steel AISI 304 18/10 integrated in the body.
- Wheels for easy movement.
- Industrial automatic burner controlled by a digital temperature probe.
- High precision digital thermostat [+/- 1°C].
- Insulation of high temperature thermal blanket Woll SUPER 13mm. thick 128kg/m³ density, except chimneys.
- Chimney flue exhaust in stainless steel AISI 30, extender for hanging or cutting potatoes.
- Oil drain valve 1".
- Useful inside, burner automatic.
- Combustible butane / propane / gas city.

Optional:

- Special manufacture in terms of dimensions, depth of the tub or conical or cylindrical shape.
- Optional support for hanging churros or potatoes machine.
- Container lid.
- Insulated chimneys.

MODEL: FGOIL70

DIMENSIONS: LENGTH 700 mm / WIDTH 700 mm / HEIGHT 800 mm.

POWER: 37 KW.

UPPER DIAMETER: Ø600mm.

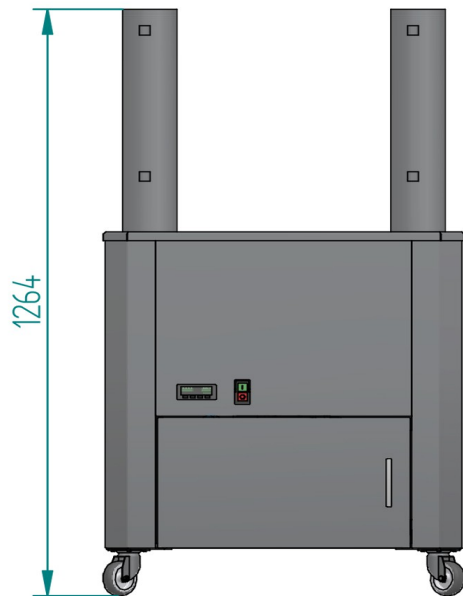

INFERIOR DIAMETER: Ø400mm.

SARTEN HEIGHT: 170mm.

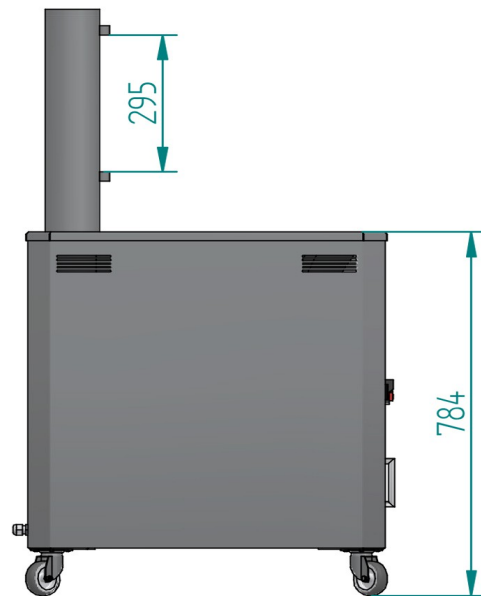

CAPACITY: 14 L.

VOLTAGE: 240V.
