

DATA SHEET

SPECIAL HIGH CAPACITY FRYER WITH SCRAPER

Specially manufactured fryer of large dimensions for high volume production.

It is a fryer model with automatic ignition.

The fuel can be butane/propane gas, city gas or diesel.

Suitable for crackling, crusts, dried fruit, potatoes...

It incorporates a fixed vat with a scraper agitator blade with food grade Teflon, which automatically prevents the product from sticking to the vat.

It includes an emptying tap.

TECHNICAL CHARACTERISTICS:

- The bottom of the cauldron has curved edges and 4mm sheet metal. The sides of the cauldron have a 2mm wall.
- Thanks to the speed variator, it allows the regulation of the blade rotation, always adapting the rotation to the speed required by the product.
- It can be manufactured in any size and capacity according to the customer's needs. It can be manufactured in stainless steel AISI 316 [to work with fish or seafood].

DIMENSIONS: WIDTH 1050 mm. / HEIGHT 1050 mm. / LONG 950 mm.

The Company reserves the right to make technical modifications without notice.
