MOTORISED ELECTRIC BASCULATING SARTEN WITH SCRAPER SBE150A

Round, conical pan designed for food preparation and discharge into carts via a motorized tilting system that maintains a constant discharge height. It features a double bottom containing thermal oil and an inner kettle that is easy to clean, equipped with a removable stirrer whose blades scrape the walls to prevent product adhesion and facilitate subsequent cleaning. Additionally, it has double-sided full thermal insulation, contributing to significant energy savings.
