

DATA SHEET

ROTARY TABLE

MSG100

Equipment designed for collecting packages exiting the packaging machine, preventing accumulation thanks to its rotating system. This mechanism facilitates the organized collection and placement of products into boxes.

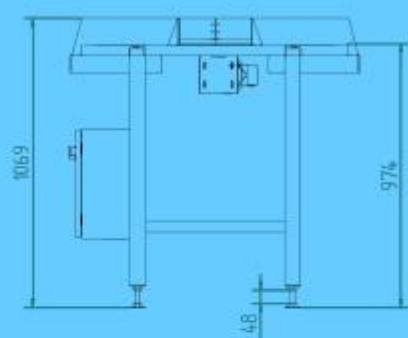

TECHNICAL SPECIFICATIONS:

- **CE Certified Machinery**, approved by a certified inspection company.
- Fully constructed in **stainless steel**, compliant with **food industry regulations**.
- Structure made of **AISI 304 stainless steel**, consisting of a steel platform (table) driven by a **0.37 kW gear motor**, whose function is to ensure continuous product movement without accumulation.
- **Drive unit**: three-phase gear motor, ½ HP.
- **Rotating system**.
- **Height-adjustable legs**.
- **Electrical control panel** equipped with a **speed variator** and safety protections.

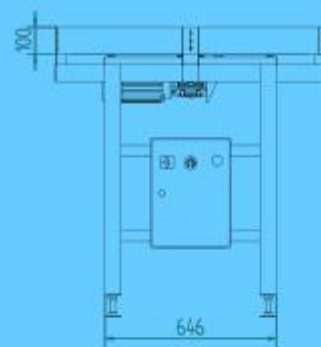

MODEL: MSG100

DIMENSIONS: DIAMETER 1000mm. / HIGH 850 mm.
