

TECHNICAL DATA

ECONOMICAL GAS FRYER

FGECO70

Robust and resistant stainless steel industrial machines ideal for low to medium production or as start-up equipment.

TECHNICAL CHARACTERISTICS:

- Suitable for outdoor use only.
- Manufactured of stainless steel.
- Frying in stainless steel AISI 304 18/10 integrated in the body.
- Adjustable legs of PVC. · Insulation of high temperature thermal blanket Woll SUPER 13mm. thick 128kg/m3 density, except chimneys.
- Chimney flue exhaust in stainless steel AISI 30, extuder for hanging or cutting potatoes.
- Oil drain valve 1".
- Burner high pressure.
- Combustible butane / propane.

Optional:

- Temperature measurement probe.
- Electric ignition button.
- Wheels for easy movement.
- Container lid.
- Insulated chimneys.

MODEL: FGECO70

DIMENSIONS: LENGTH 700 mm / WIDTH 700 mm / HEIGHT 800 mm.

POWER: 29 KW.

UPPER DIAMETER: Ø600mm.

INFERIOIR DIAMETER: Ø400mm.

SARTEN HEIGHT: 170mm.

CAPACITY: 14 L.

VOLTAGE: N/A
