

TECHNICAL DATA

AUTOMATIC GAS-OIL FRYER HOB

FGOIL100

Automatic machine for large-scale production or as professional equipment. Its quality makes it a very durable and resistant machine for industrial use.

TECHNICAL FEATURES:

- **Suitable for indoor and outdoor use.**
- AISI304 18/10 stainless steel body.
- AISI304 18/10 stainless steel tank integrated in the body.
- Wheels for easy movement.
- High power industrial burner controlled by a digital and temperature probe. Suitable for indoor and outdoor use.
- Maximum precision digital thermostat [$\sim 1^{\circ}\text{C}$].
- Insulation with high temperature thermal blanket SUPERWOLL, Density 128kg/m^3 thickness 13mm. Except chimneys.
- AISI304 stainless steel smoke expulsion chimneys, for hanging dosing machine or potato cutter.
- Built according to CE regulations.
- Temperature from 80°C to 200°C .
- Oil drain valve 1".
- Fuel: butane / propane / city gas.

OPTIONAL:

- Special manufacture in terms of dimensions, tank depth, conical or cylindrical shape.
- Lid.
- Mast for hanging a dosing machine or potato cutter.
- Chimney insulation.

MODEL: FGOIL100

DIMENSIONS: LENGTH/FUND 1000mm. / WIDTH 1000mm. / HEIGHT 800 mm.

POWER RESISTANCES: 37 KW.

UPPER DIAMETER: $\varnothing 900\text{mm}$.

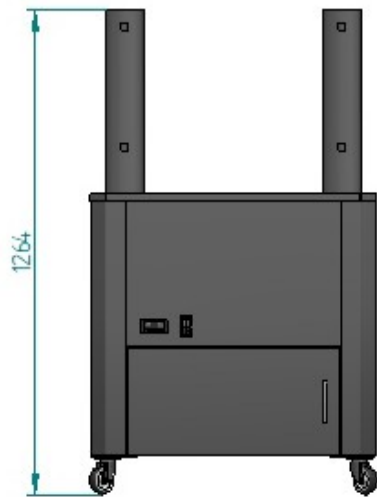

LOWER DIAMETER: $\varnothing 700\text{mm}$.

SARTEN HEIGHT: 170mm.

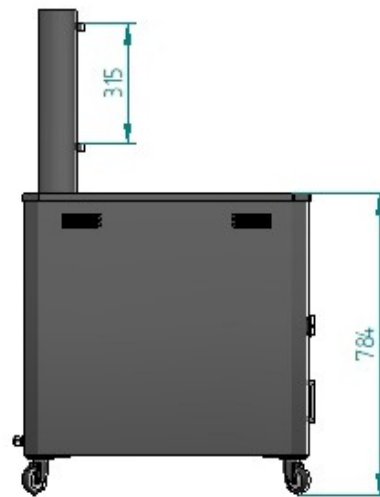

CAPACITY: 38 L.

VOLTAGE: 240V.
