

DATA SHEET

AUTOMATIC PEDAL DISPENSER

DAUTV15

High-production automatic machine ideal for the manufacturing of roscas or porras, designed to be operated by a single person. Its system allows precise dosing and streamlines the production process, making it suitable for high-demand environments.

TECHNICAL CHARACTERISTICS:

- Constructed in AISI 304 18/10 stainless steel, ensuring strength, durability, and hygiene.
- Equipped with a 15 kg capacity hopper for greater production efficiency.
- Operated by a foot pedal and includes a nozzle for porras.
- Fitted with wheels for easy mobility.
- Designed for easy cleaning without the need to disassemble the machine.

MODEL: DAUTV15

DIMENSIONS: LENGHT 560 mm WIDTH 380 mm HEIGHT 1510 mm

CAPACITY: 15KG

FUNCTIONING: SPEED VARIATOR

MOTOR: 1 C.V

VOLTAGE: 220V II

The Company reserves the right to make technical changes without notice.
