MOTORISED ELECTRIC BASCULATING SARTEN WITH SCRAPER SBE300A

Round and conical pan designed for food preparation and discharge into carts through a motorized tilting system that maintains a constant height of the discharge opening. It features a double bottom that houses thermal oil and an inner pan that is easy to clean, equipped with a removable stirrer whose blades scrape the walls to prevent food from sticking and facilitate subsequent cleaning. Additionally, it has double-sided full thermal insulation, contributing to significant energy savings.
