

DATA SHEET

AUTOMATIC CROQUETTE FORMING MACHINE

FORMACRO400

Croquette dosing or forming machine designed for the automatic dispensing of products such as croquettes and meatballs. This equipment is highly useful for meat processing facilities, catering services, and restaurants. The operation is both pneumatic and electric, requiring a small pneumatic compressor for proper functionality (optional). It also needs to be connected to an automatic filler with a 30 mm outlet (optional). The croquette former is supplied with a standard 25 mm nozzle and can be equipped with interchangeable nozzles of 22 mm or 28 mm upon request.

TECHNICAL SPECIFICATIONS:

- Fully constructed in AISI 304 18/10 stainless steel.
- Completely removable for easy cleaning.
- Equipped with methacrylate sanitary guards.
- Adjustable croquette length, allowing sizes ranging from 20 grams to 60 grams per croquette.
- Production capacity of up to 3,600 croquettes per hour.*
- Built in accordance with CE regulations.

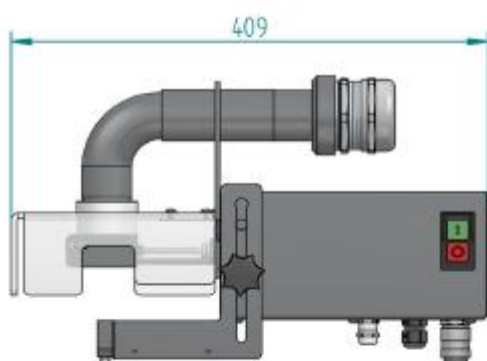

MODEL: FORMACRO400

DIMENSIONS: LENGT 409mm. / WIDTH 152 mm. / HIGH 262 mm.

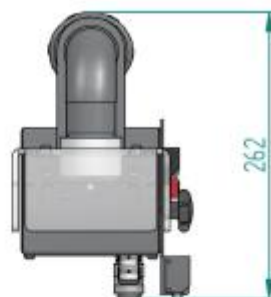

POWER OF RESISTORS: A (intensity) 0.55W

VOLTAJE: 230V III.

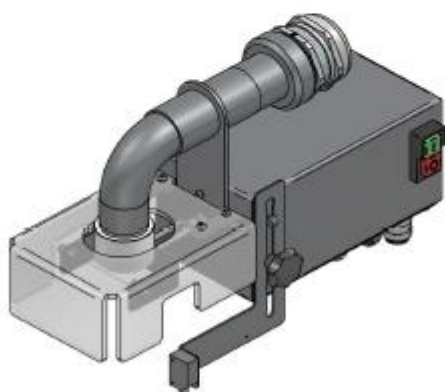

DIMENSIONS

VISTA LATERAL

VISTA FRONTAL

VISTA ISOMÉTRICA

VISTA PLANTA

APROXIMATE WEIGHT: 5 Kg.
ELECTRICAL CONNECTION: 230V
